Notes: Population figures are 2005 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

Once again it shows us over stopping blacks. Since our population is predominately white, stopping one black puts us over the disparity index. As noted, no searches were conducted on blacks. We have a major highway running through town that connects larger cities, so different races have the potential to be stopped for valid offenses. Stopping one or six blacks in a year certainly does not show our department is profiling as this data suggests.
